

SAN DIEGO Angel Conference

Innovation & Entrepreneurship Sponsorship Opportunities 2024-2025

Why USD SDAC? This not-for-profit organization stops the catch 22 between investors and startups, demonstrating that there are enough companies worthy of investment and enough active angel investors to fuel the innovation ecosystem. It incorporates community partners, USD stakeholders, leading corporations, and investors. The six-month cycle wraps up with a finale event where the top six companies compete for \$200,000 in investment from participating investors.

*Each SDAC annual cycle attracts up to 500 early-stage entrepreneurs seeking mentoring, introductions to service providers, and angel funding. About 100 angel investors are actively engaged with SDAC each year and contribute to the SDAC fund that invests in one or more finalists of the SDAC each year.
